6 -11 year olds to be given contraceptive advice

The page below is scanned from a colourful brochure circulated amongst primary schools, offering teaching aids such as “The Primary school sex & relationships education pack” and “contraceptive card game” which “covers the names of contraceptive methods, information about them and where they may be obtained, pros and cons of different methods and full colour pictures.”

Other Resources

Basic Drug Facts
Basic Drug Facts is a card game which has been developed for use by primary schools and youth and leisure centres. The card game covers 12 legal and illegal drugs, their effects, uses, where to buy and legal status.
Written by Julia Cohen.

3. Drug use and the law
4. Drug use and the environment
5. Drug use and the media
6. Drug use and the future
Written by Julia Cohen.
Price of a set of 6
£25.00

This is not the answer to girls as young as 10 becoming pregnant. Rather, this is the reason why such children are investigating sex and becoming pregnant!
