Classroom replacement plan

The classrooms which must be replaced

Last month, we reported on the scheme which Kilskeery Independent Christian School was launching to mark its 25th anniversary year which begins this September. So far, over £12,000 has come in for the work, which will cost an estimated £70,000.

The School Management Committee was much

heartened by the instant and generous response with which the report in our last issue of "The Burning Bush" was met. It is hoped, that by God's blessing we will see the replacement classrooms in place for September of this year. Please continue to pray for this venture.
