### Support for Radio Broadcast floods in

Rev. Ivan Foster prepares the gospel broadcasts

One married couple sent a gift of £500! As I have said in my letter of reply to those who have supported us, "God's people never fail to respond to that which they feel worthwhile supporting."

Some supporters have indicated that they would like to covenant £50 per year and so pay for one week's programme. If we had 52 people doing that, our income for the continuation of the broadcast would be secured. Actually, we don't require 52 any more, since about twelve people have already told us that they wish to become covenanters. I have no doubt that the support for this witness will grow.

Please pray for the broadcasts that God will give a listening ear. Just imagine those who have tuned in to hear country and western music and suddenly it is the Word of God they are hearing. The temptation to switch off or re-tune to another station will be strong. Pray that God will generate an interest in His Word and that the preacher will be given the gift of the radio evangelist.

Our first broadcasts have been delivered to the station. Indeed, in the will of the Lord, the first broadcast will have been aired by the time you read this, since April 5th at 10.00 am is the date and time of the first programme. I have given my testimony on our first broadcast because, providentially, it takes place on the 35th anniversary of my conversion. Our last article stirred up some interest because I heard that the radio station had some inquirers asking if Ivan Foster was going to be on the air. We hope they were pleased at the prospect!

Again, I ask for your prayers. I hope that church prayer meetings will add us to their list, alongside Rev. Leslie Curran and his world-wide broadcast ministry. Praise God for new doors opening in a day when the devil is so active!
