The threat of the tsunami!!

The world, as never before, has been able to watch the power of the forces that lie concealed and, under the providence of God, largely controlled, within this world of ours.

The Asian tsunami has wrought untold destruction and havoc on the coasts of those lands surrounding the epi-centre of the undersea earthquake which took place on Lord's Day 26th December. Tens of thousands have been swept away to their doom while millions have been left

homeless. Children have been orphaned, women widowed, husbands bereft of their wives and fathers and mothers have been left to mourn in brokenness for children they will never see again. It swept in over beaches where millions were holidaying without a thought of danger or destruction or death.

There were the warnings. The sudden receding of the sea was a signal that a tsunami was on its way in about 15 minutes time.

Had many known the significance of that signal, countless thousands would have been saved. It pictures for us this world with its population sporting itself unaware of the danger that approaches. Christian, renew your efforts at sounding out the warning of the gospel and urging upon men the need to flee to Christ from the wrath that is to come. Pray for those who suffer beneath this heavy blow. "By faith Noah, being warned of God of things not seen as yet, moved with fear, prepared an ark to the saving of his house," Hebrews 11:7.
